ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids, and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Sales Are Conducted As Follows:

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins for each sale. Whenever this happens, we want it called to our attention to help prevent future errors.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

IS THIS YOUR FIRST AUCTION CATALOG?

**20TH EDITION (1967) GUIDE BOOK, (1965) PAPER MONEY 5th EDITION
"TRENDS" AND OTHER AUCTION RECORDS USED IN CATALOGING.**

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand at the time of the publication. **The estimated prices are entered only after careful examination of various records and publications which reflect the actual and not theoretical values. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, CURRENCY, ETC. ARE ESTIMATED AT CATALOG).** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.50. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing far more than we believe it is worth, or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them, as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION**

BARGAINS

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots", yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, (yes we receive some now and then), we want to hear them. Having catalogued over two hundred sixty successful coin sales, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 8c airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the bid sheet. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

Postal regulations require Zip Codes. To continue receiving these catalogs be sure you send us this Zip Code.

This particular specimen could very well be a proof as it has a **perfect brilliant proof surface both sides, wire edge, etc.** On a comparative value scale, this remarkable specimen should certainly be worth over\$1,000.00

HALF CENTS — INCLUDES 1796

We note a strong interest in this series, particularly the past year and believe this will be reflected in the new Guidebook coming out in June.

2060—1794 Basically extremely fine but heavily eroded, if not eroded this coin would easily be worth over 500.00

2061—1795 Lettered Edge, Pole to cap, small 5, wide date variety very fine obverse, extremely fine reverse, evenly struck. RARE. Acquired about 3 years ago when it was described as "Extra Fine for coin and valued 500.00

2062—1795 Plain Edge, NO POLE, fine and sharp obverse, very fine reverse; Rare, more so than catalog indicates. Acquired in 1964 at \$185; should now exceed 200.00

2063—1796 G-1, Pole To Cap, acquired from the November, 1965 ad (page 3095) Numismatic Scrapbook magazine as "Extra Fine, attractive blended blue and brown color. RAREST DATE HALF CENT, \$7,750.00." We note there has been a consistent rise in value of this rare date nearly every year and see no reason why this pattern should not continue in the future. This date appears more often than any other on the want lists we receive

2064—1797 Plain Edge, good obverse, fair reverse. Catalogs good \$55 and fair \$35; averages out to 45.00

2065—1797 Ex. Breen described as "B-22c:1-A, G-2; low head, plain edge. Might be mistaken for Grippped Edge? R-6. Probably 6th or 7th best (condition census?). Reverse *always* weak (die sinking)." Very good and sharp obverse with reverse (as stated by Breen) not quite that. According to Breen, this variety is at least as rare as the 1797 lettered edge, if not actually rarer! From the same dies as the lettered edge (very low head). The let. edge catalogs v.g. 340.00

Consignment G—California

PRIVATE & TERRITORIAL GOLD OF CALIFORNIA

These "Necessity Coins" represent one of the most fascinating periods in the history of the development of the U. S. The stories these coins could tell if they could speak. An increasing amount of the few still extant seem to be impounded into museums, foundations, educational exhibits, etc. The amount of collectors contacting us with this type of material for sale is rapidly declining. It is inevitable that the law of supply and demand will force prices to seek their proper level.

- 2205—NORRIS, GRIEG & NORRIS 1849 HALF EAGLE, "Full Weight," "California Gold Without Alloy."** Acquired as a **"PROOF"** but we cannot agree with this description. It is indeed a lovely specimen with PROOFLIKE surface, careful examination with a strong glass reveals faint rubbing (possibly from sliding on the velvet in the old-time coin-cabinet tray). The glass also reveals a slight nick. Plain Edge variety which some leading authorities state is rarer than the reeded edge. Edgar H. Adams (the leading authority in this field) considered this the first of the California private gold coins. Acquired several years ago at 1,500.00
- 2206—**MOFFAT & CO. 1849 Liberty head and eagle resembling regular U. S "Five Dol."**, "S.M.V. (standard mint value) CALIFORNIA GOLD," acquired as "Uncirculated, Choice"—it is mounted in plastic but upon close inspection with a glass there is a slight rub spot (possibly removal of some solder) faint trace of rubbing. From the rare well-engraved dies, a sharper than usual strike. Cost \$500 (catalogs unc. \$575). What this popular piece will now bring, your guess is as good as ours.

PRIVATE & TERRITORIAL GOLD OF CALIFORNIA (Continued)

- 2207—**UNITED STATES ASSAY OFFICE OF GOLD**, San Francisco, California 1853 900 Thous., variety with **FIRST "0" OVER ANOTHER NUMERAL, TWENTY D.**, acquired as "**PROOF**" but we would rather call it Proof Surface, SHARP STRIKE WITH WIRE EDGE. In checking records we note a similar specimen in the 1964 A.N.A. convention sale (lot 3338) described as "Brilliant Uncirculated, with a prooflike surface and a first strike. This one is the second finest known. The finest known, which the cataloguer owned, has changed hands about three or four times in the past six years and the last time one of our officers of our company noted that the specimen we are referring to was being offered at \$6,500.00. Basing all this on this coin being offered, we should then be safe in saying the estimated value should be \$4,500.00." Possibly this is that identical specimen since it fits that description or perhaps it is the third specimen (that cataloguer further stated "we were present when this one and two others came to light in a discovery").
- 2208—**MINERS' BANK. San Francisco (1849) TEN D.**, mounted in plastic lettered "Struck in white metal and gold plated," virtually Uncirculated, only barest friction. The usual all-gold specimen catalogs unc. \$3500, this one (even tho it is actually rarer) will probably realize closer to 1,500.00
- 2209—**BALDWIN & COMPANY 1850 TEN DOLLARS, horseman type, Uncirculated, struck in white metal and gold plated.** Quite popular resulting in a substantial rise in value during the past decade when several specimens came upon the market. The usual all-gold variety catalogs \$7,500; this one probably worth closer to 1,500.00
- 2210—**WASS, MOLITOR & COMPANY 1855 TWENTY DOL., San Francisco, California, small head variety, acquired as "UNCIRCULATED" but close inspection with a glass reveals slight handling marks, therefore we would prefer to call it "Virtually Uncirculated."** The rarity of this specimen is reflected in the guidebook by listing it only in fine and very fine even tho it lists the majority also in "Ex. Fine" and "Unc." We note a leading Ohio firm about two years ago advertised a fine specimen at \$1650; surely this **RARITY IN TOP CONDITION** worth over 3,500.00

CALIFORNIA \$1 GOLD, INCLUDES UNIQUE \$1

The guidebook states, "The impetus of the gold rush created a shortage of "small change" and private companies supplied these coins for the 30-year period in direct proportion to the need. They were struck from 1852 to 1882, when the U. S. Government passed a law forbidding private coinage." We have noted a consistent rise in values annually.

- 2211—\$1 OCTAGON undated, B-1, Large Liberty Head, 13*, reverse: defiant eagle holding scroll in beak (similar type as famous \$50 gold "slugs") CALIFORNIA GOLD ONE DOL., near Uncirculated. Rare and popular. Acquired 2½ years ago at \$250; could now realize 300.00
- 2212—\$1 OCTAGON, UNPUBLISHED! Ex-Breen as "Obv. B-1, Rev. Crude eagle with scroll. CALIFORNIA GOLD 1853, the 53 INVERTED; ONE DOL below (note B-1 has period after DOL.) UNPUBLISHED. UNIQUE." Acquired in 1963 at \$1500 when B-1 was bringing around \$200; now, after 3½ years later, this great rarity should exceed 2,000.00
- 2213—\$1 OCTAGON (B-5) 1853 Large handsome Liberty Head, 8*, rev. CALIFORNIA GOLD DERI around "1 DOLLAR 1853", PROOF. 150.00
- 2214—\$1 OCTAGON (B-10) 1853 rather small and old appearing liberty head, 10*, rev. CALIFORNIA GOLD FD around 1 DOLLAR 1853 in beaded circle, INVERTED "G" IN "GOLD." BRILLIANT PROOF. 200.00
- 2215—\$1 OCTAGON (B-46) 1869 Large AGGRESSIVE liberty head, beads around neck, 13 (tiny)*, "G" under head, rev. CALIFORNIA GOLD 1 DOLLAR 1869, PROOF. 150.00
